

USB MultiDrive 4+

Internal or external drive for USB 2.0 with four different slots

- ◆ Internal drive with standard 3.5" case and high speed USB 2.0 interface with slots for most popular Flash memory cards; also available as an external version in a robust plastic case in grey; other colours on request
- ◆ Four slots for memory cards:
 - 1.) ATA PC Card or HDD in PC Card format (Type I or II)
 - 2.) CompactFlash Card (Type I or II) or Microdrive
 - 3.) SD & SDHC Card or MultiMediaCard
 - 4.) Memory Stick PRO or PRO Duo
- ◆ Each slot appears under Windows as a separate removable media drive; data can be copied directly between cards inserted in different slots
- ◆ By using appropriate PC Card, CF or MS PRO adapters compatible with memory cards such as miniSD, microSD, Memory Stick Micro M2 or xD-Cards
- ◆ USB 2.0 Mass Storage compliant; downwards compatible to USB 1.1
- ◆ Windows ME, 2000 with Service Pack 3, XP and Vista compatible using drivers contained in operating system; special drivers are necessary for Windows 98 SE and 2000 without SP3
- ◆ Power supply via standard connector at internal version, external version USB bus powered; external power supply available on request
- ◆ Optional extensions such as activation of software write protection and unmounting of cards from application software
- ◆ On request USB MultiDrive 4+ xD is available with xD-Card instead of PC Card slot

Storage media which is directly supported by the USB MultiDrive 4+

24 Months Warranty
